

Dear Students,

Based on the success of last years' competition, **MOL Group** has just launched this year's **international on-line competition, 'freshhh2010'!**

The competition is technically-oriented and focuses on the oil and gas industry. It comprises **several rounds**: an on-line round with a board game about the oil- and gas industry consisting of quiz questions, on-the-job tasks and logical games; a creative task and the live final with the best teams. Except for the live final, the game runs on-line. **3-member teams** are very welcomed! www.freshhh2010.net

Registration starts from the first week of February and will continue until 28th February.

On offer is total prize money worth **Euro 20,000**, plus the **possibility of a free place in our "growww2010" New Graduates Programme!**

Follow the more than 2000 participants' experience! **Register by 28th February!**

It's your turn! www.freshhh2010.net

Have fun and good luck!

The 'freshhh2010' Support Team
