Dr. Bojan Cukic is a Robert C. Byrd Professor of Computer Science and Electrical Engineering at West Virginia University. He is the director of Center for Identification Technology Research (CITeR) at WVU, a National Science Foundation sponsored Industry University Cooperative Research Center, which specializes in research on biometrics, identity management and credibility assessment.   His research interests include software engineering with emphasis on verification and validation, information assurance and biometrics, and resilient computing. Dr. Cukic received MS and PhD in Computer Science from the University of Houston and a BS from the University of Ljubljana, Slovenia.

Dr. Cukic received a Career award from US National Science Foundation and a Tycho Brahe award for outstanding empirical research from the NASA Office of Safety and Mission Assurance. He has published more than 160 peer reviewed papers appearing in scientific journals, books and conferences. Dr. Cukic served as a program chair of IEEE Symposium of Reliable Distributed Systems (SRDE 2005), IEEE International Symposium on High Assurance Systems Engineering (HASE '07), IEEE International Symposium on Software Reliability Engineering (ISSRE '03 and '11) and a guest editor of IEEE Software magazine. He is a member of the editorial board of Empirical Software Engineering journal and serves as a representative at the University-Industry Demonstration Partnership of the US National Academies.
